Description:

Vertical Garden.

3 x 3m (h)

The idea of green walls has become very fashionable. Either part of a building or free standing, this sustainable innovation is healthy and great to look at.

Vertical gardens are an alternative for gardeners who don't have a lot of horizontal space, want to cover an unattractive wall, or just want something different.

This 3d model is a great idea to decorate a virtual bathroom or a commercial space as a restaurant or a lobby!
